

**18<sup>th</sup> International Conference on Chiroptical Spectroscopy**  
NEW YORK CITY, JULY 24-27, 2022

Yuan Yao  
Department of Materials Engineering  
Cornell University

July 27, 2022

Dear Yuan:

Congratulations on winning the BioTools Prize for your poster entitled “Extracting Pure Circular Dichroism from Hierachically Structured Magic Cluster Films” at the CD2022 meeting! Posters were judged on scientific content and presentation clarity, with your outstanding contribution standing out among the assembled group of more than 40 competitors.

To recognize your current success and exceptional promise for continuing accomplishments, you will be receiving a check in the amount of \$500 (USD). Please feel free to share news of your award with your mentors and colleagues at your home institution.

We wish you the best of luck in all of your future endeavors!

Sincerely yours,

Bart Kahr
